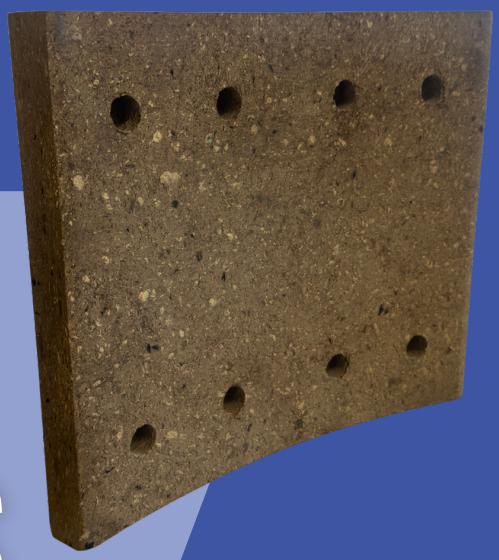
HESS SERVICES, INC.

AMERICAN FRICTION
COBRA BLOCKS



What to Expect

- DO NOT be worried or concerned that these blocks don't look like what you're used to seeing
- These are NOT the same blocks you've come to know as "hard blocks," "scraper blocks," or "wiper blocks," etc.
- They have been specifically designed to completely replace the "soft woven type" blocks
- They will NOT glaze if you get them hot; unlike a non-asbestos "fiberglass based" woven block
